Infection Prevention Policy and Procedure Manual for Hospitals. [Pro 260-40-17 (a)]. Infection Prevention and Procedure Manual for Hospital Care. Carmichael, 2001. Recommended for all settings. The manual provides guidelines for discharge planning, infection control, and other health care tasks. It also contains infection prevention procedures in all areas of the hospital. If the Infection Prevention Plan contains any practices that lack Infection Prevention and Procedure Manual, it is recommended that procedures in the Infection Prevention Plan be reviewed and updated by the hospital's Infection Prevention and Control Team. This manual provides guidelines for infection prevention and control in health care settings, and it is recommended that these guidelines be followed. It is also recommended that the hospital's Infection Prevention and Control Team review and update the manual on a regular basis.
